Thanks for sending this to us Carl. Chris and I have started to bat around ideas on how to handle the permitting transition from attainment to nonattainment status for the reservation. We have also had some initial discussions on the synthetic minor issue as well.

Dani will you please set up a call for those of us on this email (Carl are these the current R8 people) for next week sometime? Is Monica Morales the correct person or was that supposed to be Lourdes?

Greg

Subject: Fwd: Attachment from Ute tribe

The Ute Tribe's resolution on an EPA U&O FIP is attached. This was handed out at the consultation meeting Monday.

The resolution mentions in several places the Tribe's desire for an expedited permitting process for new O/G sources in a non attainment area. An issue that industry has also mentioned to the Region and OAQPS.

We may want to start thinking about how to cover new O/G sources after the Basin is most likely designated non attainment in late 2017. I'm sure we will get comments on this when we propose.

Thanks

Carl

This is what they discussed at the consultation.

Callie –FYI - this is the same as what was scanned with the attendees list and sent yesterday, I just seperated it out.

Let me know if you have any questions and great job on the call.

Pat
